

2024 Q1 NEWSLETTER

SRSLY, WHAT'S BREWING?

Dear SRSLY® Users,

As January unfolds, ClaretBio's 2024 scientific journey begins! Bundle up for nearing conferences, discover new features on our latest product, take note of price adjustments, and mark your calendars for enriching webinars. Let's dive into this wintry blend of knowledge and innovation together!

1. REALLY-rNONE PRODUCT UPDATE

The validation results are in, REALLY-rNONE for transcriptomics, is now compatible with Human and Mouse RNA samples. Achieve maximum ribodepletion, bar **NONE!**

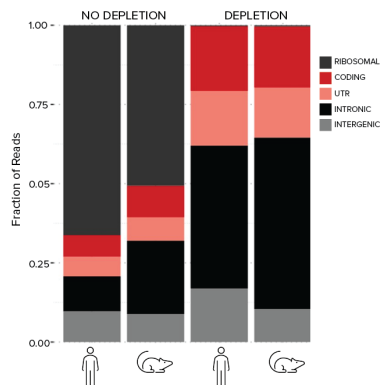

Figure 1: Genomic composition of libraries made with REALLY rNONE. 100ng of Universal total RNA from human or mouse (Agilent® Technologies) were used to make REALLY RNA-Seq libraries with or without the rNONE ribo-depletion module.

2. THE SERIOUS TALK - 6

Join us February 13th at 10am PT to explore how Dr. Katherine Miller from Nationwide Children's Hospital has implemented SRSLY into her brain mosaicism research. Register to attend: <https://www.claretbio.com/events>

[Watch our recent webinar](#) from Brent Lehman from the University of Wisconsin. Discover how SRSLY enables NGS analyses of samples recovered through the Missing in Action Recovery and Identification Project. Ready to showcase your scientific research using SRSLY? Email us!

3. NEW QR CODE FOR MANUAL

From the lab bench to your sample retention freezer, accessing our library prep protocol is now effortless! Simply scan the QR code on your kit box to seamlessly access the comprehensive SRSLY and REALLY unabridged manuals.

4. UPDATED 2024 PRICING IN FEBRUARY

In our ongoing pursuit to make SRSLY more user friendly, In 2024, we're updating our pricing to reflect the evolving landscape of scientific innovation. Rest assured, this adjustment will enable us to continue providing high-quality kits to support your research. We appreciate your understanding and look forward to continuing this research journey together.

5. MEET US AT THESE CONFERENCES

Meet us at these conferences this quarter. Email info@claretbio.com for a meeting.

- **Precision Medicine World Conference, PMWC**
Jan 24 -26th in Santa Clara, CA
- **American Genome Biology and Technology, AGBT**
Feb 5 - 8th in Orlando, FL
- **Circulating Nucleic Acids in Plasma and Serum, CNAPS**
Mar 4 - 6th in Graz, Austria

Get ready to dive into a year of scientific excellence with ClaretBio!
